Explore Newton's Laws of Motion...

While at play with his dog, Newton, a young boy discovers the laws of force and motion in his everyday activities. Told in rhyme, Lynne Mayer's *Newton and Me* follows these best friends on an adventure as they apply physics to throwing a ball, pulling a wagon, riding a bike, and much more. With the help of Sherry Rogers' playful illustrations, children will learn that physics is a part of their world. They will realize that Newton's Laws of Motion describe experiences they have every day, and they will recognize how forces affect the objects around them.

Teachers and parents will love the **"For Creative Minds"** educational section, which includes the following educational activities:

- Force and Motion Facts
- Matching Forces: Pushing or Pulling?
- Who was Newton?
- **Newton's Laws of Motion**

There are also **"Related Websites," "Interactive Math, Reading, and Comprehension Quizzes,"** and **"Teaching Activities"** on Sylvan Dell Publishing's website, <http://www.SylvanDellPublishing.com>, to help parents and educators extend the learning possibilities! About the Author/Illustrator

Lynne Mayer grew up in Palos Park, Illinois. She attended the University of Illinois where she obtained her degree in computer science/math and developed her love of puzzles and educational reading. She is currently an adjunct instructor of computer science at Elgin Community College. The college has provided Lynne with the opportunity to travel to exotic places. She has visited the Amazon jungle in Peru as well as the Galapagos Islands in Ecuador. Often inspired by the outdoors, she will be returning to the jungle in June 2009 for her third visit. Now that her children are grown, Lynne is finally pursuing her dream of writing **educational children's books**. For more information, visit her website: <http://lynnemayer.com>.
