LiLing and Tengfei are lost...

Pandas' Earthquake Escape is a fictional story based on the 7.9 earthquake that rocked Northern China in May 2008. Author Phyllis Perry uses the adventures of a mother panda, LiLing, and her one-year-old cub, Tengfei, to teach children about earthquakes, animal survival, and to reinforce a mother's instinct to protect her child. After the quake, mother and cub run from the wreckage. Confused and afraid, they get lost! How will they survive outside their reserve? Will they find food and shelter? And will they safely endure the earthquake after-shocks? With the help of Susan Detwiler's vivid illustrations, author Phyllis Perry uses a factual event to teach children about earthquakes and animal survival.
