"These are the **most technologically advanced eBooks in the world today, featuring Auto-Flip, Auto-Read, and Selectable Language.** Press the *Start Auto-Flip* button, and these books read to the children from beginning to end with no user intervention. These are now powerful literacy and language learning tools to complement our mission of teaching **Science and Math Through Literature.** I encourage parents and teachers to take a test-drive and see for themselves. See more at our website www.SylvanDellPublishing.com. Let the children play with these by clicking on book cover images, and you'll be amazed at their excitement and improved reading performance. For children wanting to learn a foreign language or ESL families learning English, these are phenomenal tools." *Lee German, Publisher*
